

# LESS WORK, MORE WORKDAY

TopBloc is a full-service, 100% Workday-focused firm whose mission is to help our customers improve and optimize their enterprise with Workday. Whether you are looking for a partner to assist with your initial Workday deployment, a secondary enhancement, or on-going Workday support TopBloc can help.

## TOPBLOC'S APPROACH

### MORE THAN JUST A DEPLOYMENT

At TopBloc, we believe Workday deployments should be catalysts for businesses to evaluate their current processes and strengthen them. Rather than simply migrating your old system to Workday, our team will partner with you to identify areas of improvement while we work together to develop a system that enables your organization to operate more efficiently.

Our consultants work as an extension of our client's team to provide customers with tailored solutions to fit their needs. We are known for:

- Innovative, technology-driven methodology
- Industry-leading deployment speed
- Competitive fixed-time, fixed-fee pricing
- Best-in-class advisory services led by consultants with comprehensive expertise

As a preferred Workday partner, TopBloc works across industries with both Large and Medium Enterprise firms. We are proud to be recognized as one of the leading Workday Services Providers since 2018.

### OUR SERVICES

#### Workday Deployments

TopBloc's technology-based deployment solutions enable clients to focus on their business while they gain incremental value from their new Workday platform.

#### Workday Support

After deployment, you have full access to our Application Management Services offerings, including day-to-day support and payroll processing services.

#### Secondary Deployments

Whether you are looking to deploy new functionality or integrations, need support to manage an acquisition or divestiture, or have any other optimization project needs, our expert team is here help.

### THE SMARTLOADER DIFFERENCE

We deliver our customers tailored solutions through our unique technology-backed approach, which was designed to reduce timelines and eliminate inefficiencies, enabling clients to focus on their business while they gain immediate value from their new Workday platform.

Our SmartLoader tool allows for a more agile deployment by automating historically manual processes. With SmartLoader, TopBloc enables clients to focus more attention on optimizing solutions – and less time pouring over spreadsheets.
